

# Accessing disabled parking at RPA Hospital

Sydney Local Health District is increasing the number of parking spaces available for disabled patients visiting Royal Prince Alfred Hospital during the upgrade of Missenden Road and the restoration of the King George V building.

We are also looking at ways of provided assisted priority parking for disabled patients. Disabled patients attending clinics will be able to pre-book a parking space.

More information will be issued shortly on the new spaces being made available; the priority parking system and how to make a booking.

For more information about the City of Sydney upgrades along Missenden Road, visit [www.cityofsydney.nsw.gov.au/vision/better-infrastructure/streets-and-public-places/current-works/missenden-road-upgrade](http://www.cityofsydney.nsw.gov.au/vision/better-infrastructure/streets-and-public-places/current-works/missenden-road-upgrade)
